Nazis Suffer Heavy Casualties As Russians Counter-Attack Near Stalingrad

Germans Continue Advance Southeast Of Maikop Towards Grozny Oil Fields

By JAMES E. BROWN
(U. S. Staff Correspondent)

MOSCOW, Aug. 13.—Soviet resistance stiffened appreciably in the Maikop oil region of the Caucasus today where the Red army beat off a series of Nazi thrusts to oust them from strategic fortified positions.

German Field Marshal Fedor Von Bock's forces continued to advance, however, in the region southeast of Maikop toward the Grozny oil fields.

On the battlefields before Stalingrad which was threatened by a pincer movement the Nazis suffered heavy casualties when the Russians counter-attacked.

Repel Attack

Soviet troops repelled nearly all of the German thrusts in the Maikop district where fierce battling broke out for possession of a range of hills of great strategic importance. Retreating under the pressure of overwhelming numbers of Nazi troops, the Red army took up fortified positions on the heights and defeated three strong German attempts to pass.

The Germans again advanced in the district of Cherkessk, 70 miles southeast of Arzavir, and occupied a number of important points. Their immediate objective appeared to be the town of Mikoyan-Shakhar situated on a military highway.

The Red army is fighting hard to (Continued On Page Two)

Council Refuses Employee Request For Pay Increase

Mayor Mayne Gives Answer For Council To Policemen, Firemen And Garbage Workers

BUDGET LIMITS PROHIBIT RAISE

When firemen, police and garbage workers today were told by Mayor Charles B. Mayne that the city has no money at this time to raise wages 10 per cent he instructed them to present a petition, not later than November renewing their request. In addition, he painted a dark picture of city finances for the balance of this year.

Mayor Mayne said he had been instructed by his councilmanic colleagues to answer the men's request for a raise.

He said an inquiry into finances showed the city has no money available for a raise now.

The mayor stated also that the city has already over-spent appropriations made last year to cover 1942 expenses.

Asks About Ceiling

One of the men asked what would occur should the federal government establish a ceiling on wages. Mayor Mayne replied that, in his opinion such a regulation would not affect municipal employees but would affect men in plants.

The firemen and police based their appeal for a boost in wages on the increased cost of living and also that similar employees in nearby cities draw larger salaries than paid here.

The high cost of living argument in the first meeting with council was not combated. A rather heated argument occurred but today the dove of peace prevailed.

Twenty-Eight Countries Signatory To Historic Pact Made In 1941

(International News Service)

WASHINGTON, Aug. 13.—Fighting to preserve their cherished freedoms, the 28 United Nations today solemnly prepared to observe the first anniversary on Friday of the signing of the Atlantic charter.

This agreement, signed by President Roosevelt and Prime Minister Churchill on Aug. 14, 1941, as a common statement of aims and principles for the kind of peace free men can make, was designed to offset Axis peace plans based on force.

The Office of War Information emphasized that in its eight points the charter sought to establish a peace that will:

Eight Points

1. Afford to all nations the means to live in peace and safety within their own borders.
2. Assure to all people the opportunity to live in peace.

First All-American Action Against Italy Bags Three Cruisers Near Greece

By GEORGE LAIT
(U. S. Staff Correspondent)

CAIRO, Aug. 13.—United States army air force fliers in their first big all-American action against Premier Mussolini's dwindling fleet, bombed and damaged three Italian cruisers anchored at the port of Navarino in Greece, it was announced today.

Catching the Italians entirely unawares and blasting away at their ships moored close together in the broad roadstead, the Americans were sure they got four of the cruisers.

But an official communique issued in Cairo gave them credit for only three.

On Their Own

Operating without support of British planes as in previous operations, the American fliers winged their way from bases in Egypt to the Peloponnese, the southernmost island of the Grecian archipelago. (Continued On Page Six)

'Dollar Day' Throng Out In Full Force

Legion Of Shoppers, Drawn By Low Prices, Fills City Streets

"Dollar Day" brought crowds into New Castle stores today, in spite of overcast skies.

Up and down Washington street and on all other business street's the throngs of shoppers moved to and fro, and the bargain-buyers seemed to be "in clover". Forty-four establishments were participating.

All stores had merchandise attractions, although some were limited in their offerings—in some items—by war-created shortages or restrictions.

For the day the "merchandise ceilings" set by government edict were forgotten, for every store featured prices far under the federal-established levels.

Sunshine pierced the clouds at noon and caused most merchants to anticipate a heavy business volume this afternoon.

Sole Purpose Of American Troops In India Is To Aid China, Troops Told

By WILLIAM THEIS
(U. S. Staff Correspondent)

WASHINGTON, Aug. 13.—Carefully preserving its status as a potential mediator, the United States government today held its military forces in India on the sidelines of that nation's bitter civil strife.

Emphasizing that the sole purpose of American forces in India is to prosecute the war against the Axis, the state department plainly ordered its officers and soldiers "not to indulge to the slightest degree in activities of any other nature."

Only In Defense

As the wave of strikes and civil disobedience against British authority surged over the country which provides the supply-line crossroads to China, the state department told American troops to use defensive measures only if American lives or property were endangered.

Meantime, it was reported the department was pressing for early appointment of an American high commissioner to India, a post vacant since last April when Thomas M. Wilson returned to the United States.

Although Great Britain has extended no mediation offer, the press (Continued On Page Two)

Mr. Round, vice president and general manager of the Pennsylvania Power Company, has been assistant executive director and in this capacity is thoroughly familiar with the duties of the office.

Wesley Davy, who has been personal officer, will succeed Mr. Round as assistant executive director, and Roger Jewett, executive vice president of the Greater New Castle Association will become personnel officer.

These changes are effective immediately, Mr. Walton stated this morning.

Murder Charge Against Youth

(International News Service)

PITTSBURGH, Aug. 13.—Fourteen-year-old Michael Furnak, husky Homestead youth, was held for the grand jury today on a charge of murder.

The charge was brought by Michael Ivan, father of six-year-old Olga Ivan, the victim, after the boy was exonerated by a coroner's jury.

County detectives testified at the hearing that Michael pointed a .22 caliber rifle at the Ivan girl and pulled the trigger, sending a bullet into her head, directly between the eyes.

Michael did not deny the charge but explained that he did not know the gun was loaded.

Sealed instructions will be sent to county council of defense chairmen setting the time for sounding the air raid alarm, Dr. Marts said. A complete blackout will be enforced except for railroads, air field beacon and obstruction lights, radio tower and navigation lights.

Dies Lists 17,000 Friends Of Nazis

Committee Names Sympathizers—Says Walter Kappe Heads Propaganda Work Here

(International News Service)

WASHINGTON, Aug. 13.—The Dies committee announced today it has compiled a list of 17,000 persons sympathetic with the Nazi cause and disclosed that it will recommend to President Roosevelt that these persons be placed under "surveillance" to forestall possible widespread sabotage activities.

At the same time, the committee disclosed it has received copies of a letter designating Walter Kappe to be the head and organizer of various pro-German organizations in the United States.

According to an official of the committee, Kappe has been doing Nazi organization work in the United States for more than 15 months. He is one of three saboteurs sought by the Federal Bureau of Investigation in recent widely broadcast descriptions.

Kappe, according to the letter, was released from the German army in order to come to the United States as leader of the "Central Office of the Comradeship, USA."

He was appointed by Fritz Gissibl (Continued On Page Two)

WASHINGTON, Aug. 13.—With what may be the first real naval engagement of the war raging in the Solomons, indications today were that both the United States and the Japanese are suffering heavy losses in the struggle for control of South Pacific supply lines.

As the battle entered its seventh day, it was evident in Washington that American operations are proceeding satisfactorily, but the optimism was tempered by the realization of the terrific cost of an invasion against an enemy who has spent months making his footholds secure against just such an attack.

Five British Bombers Fail To Return After Attack On Railroad Town

FIRES STARTED HOUSES DAMAGED

By LEO V. DOLAN
(N. S. Staff Correspondent)

LONDON, Aug. 13.—Mainz, important German industrial and railway center at the junction of the Rhine and Main rivers, was bombed last night for the second successive time by a strong force of British planes, the Air Ministry announced today.

Nazi-held airbases in the low countries of occupied Europe also were blasted.

Five of the Royal Air Force bombers failed to return to their bases. Planes of the German Luftwaffe simultaneously conducted scattered raids over England. The outskirts of London were included among points which felt the impact of Nazi bombs.

While R.A.F. fighter squadrons hopped around to occupied points in western Europe to bomb Nazi installations, German big guns along the French coast between Boulogne and Calais hurled shells across to the Dover Straits to England. British artillery batteries replied and an hour-long duel was precipitated.

New flames were started in Mainz when the British bombers conducted their second attack within less than 24 hours against the city. Flames still smoldered as a result of Tuesday night's heavy assault by a force estimated at 400 planes.

The new assault against Mainz was acknowledged by the Berlin radio.

Quoting a dispatch by the official German news agency, DNB, the Berlin radio said that the R.A.F. had struck at western Germany.

Fires were started and damage was done to residential quarters in Mainz, DNB said.

It was claimed that four British bombers were shot down.

stem the Nazi advance in this sector and in some places is counter-attacking. An especially fierce battle resulted for possession of an undisturbed populated point and the Russians were forced to retreat.

Fresh Reserves

Fresh reserves were thrown into the fray in the Kletskaya region, 80 miles northwest of Stalingrad, by the Germans who suffered 200 casualties when the Russians counter-attacked. The Soviet defenders successfully repulsed six new German attacks.

Northeast of Kotelnikovo, 95 miles southwest of Stalingrad and southern arm of the pincers movement against the city, the Soviet forces improved their positions after a series of counter-attacks which threw the Germans on the defensive.

One important inhabited locality, the high command said at noon, changed hands several times.

A total of 700 Germans was taken in the Soviet counter-attacks, the high command said.

Seven Losses

In the Krasnodar area westernmost front in the Caucasus, two crossings which the Germans had established over the Kuban river were destroyed and severe losses inflicted, the noon communique said.

In the Cherkessk and Maikop areas, the communique said, "tense fighting continues against German tanks and motorized infantry."

A new Soviet success south of Voronezh, 300 miles north of captured Rostov, was announced. Here, the high command said, Nazi troops were pressed back and an inhabited locality designated only as "K" was cleared of Axis forces.

Mortar attacks launched by the Germans in the Voronezh area were said to have been repelled.

"On the northwestern front," the communique added, "an inhabited locality was captured and 15 enemy counter-attacks repelled in one day."

The new withdrawal by Soviet forces along the Rostov-Baku railway was announced at midnight by the high command. The retreating Russians left in their wake blazing towns and wheat fields to deny the Nazis any fruits of victory.

LONDON, Aug. 13.—The Japanese fleet has lost control of Tulagi harbor in the Solomon islands to units of the United States Pacific fleet, the naval correspondent of the Yorkshire Post declared today.

The American forces which drove the Japanese warships out have prevented them from returning and have been successful in keeping the Japanese units clear of the harbor.

The advantage in the naval action remains with United States Vice Admiral Richard L. Lee through denial of the key island to the enemy fleet, the correspondent said.

Naval action still is continuing in a dispersed form. It was added.

Arrest Fourteen

Fourteen men and women were arrested for helping the spies, but two, Mrs. Maria Kerling and Ernest Herman Kerkhof, have been interned for the duration as dangerous alien enemies and will not stand trial.

The four Americans not charged with treason and two aliens who were arrested will be accused of violation of the trading with the enemy act, the foreign agents act of 1917, and other criminal statutes.

Grand juries in Chicago, Brooklyn and New York are expected to "rush through" the indictments. Biddle said that the grand juries will hear the cases "within 10 days" and the trials of the accomplices will begin by October.

Trial in Chicago

Six persons—three men and three women—will be prosecuted in Chicago.

They are Mr. and Mrs. Hans Max Kaup, father and mother of Herbert Haupt, one of the six saboteurs who was executed; Mr. and Mrs. Walter Wilhelm Froehling, uncle and aunt of young Haupt, and Mr. and Mrs. Otto Richard Werlin. All are residents of Chicago and are naturalized citizens.

Herman Heinrich Faje of Astoria, L. I., will meet swift American justice in Brooklyn.

Two others, Mr. and Mrs. Harry Jaques of Chicago, also face indictment, but Biddle did not indicate where the grand jury would sit. Both the Jaques are enemy aliens and are now interned.

FBI Director J. Edgar Hoover said the 14 who were arrested were the immediate contacts of the Nazi spies and are known to have given shelter to the saboteurs after their arrival in New York and Chicago.

confronted with stubbornly defended positions before they gained ground "in fierce fighting" between the Volga and Don rivers.

It was claimed that Nazi planes attacked shipping in the north Caucasian coastal area and waters "farther to sea" as well as in the Kerch straits. The high command asserted that three coastal vessels were sunk, several lighters and three transport vessels set afire.

The high command admitted that in the Rhyev sector, the Germans are still on the defensive. The fighting in this sector was described as a "heavy defensive struggle."

Hand-to-hand fighting took place southeast of Lake Ilimen, the high command said, when a small group of Russians was surrounded and "annihilated."

ence of a high commissioner in India would mean that this government would have an accredited official on the scene to handle any such move. Whether President Roosevelt would undertake to intervene on his own should the outbreaks sweep through vital war industries remained to be seen.

The American policy was outlined as follows: "1—The sole purpose of the American forces in India is to prosecute the war of the United Nations against the Axis powers. In the prosecution of the war in that area the primary purpose of the government of the United States is to aid China."

"2—American forces are not to indulge to the slightest degree in activities of any other nature unless the Axis should be attacked by the Axis powers in which event American troops would aid in the defense of India."

"3—American forces in India will exercise scrupulous care to avoid the slightest participation in India's political problems or even the appearance of doing so."

"4—In the event of internal disturbances American forces will resort to defensive measures only should their own personal safety or that of other American citizens be endangered, or for the necessary protection of American military supplies and equipment."

NAVY ENLISTMENTS UP

(International News Service)

ALTOONA, Pa., Aug. 13.—Despite the heavy drain made on manpower in the Altoona area, observance of Navy enlistment week was gratifying today to officers in charge of the navy recruiting station.

With a goal of 200 recruits fixed for the end of the week, officials reported that 123 men volunteered for duty the first day and many have followed on succeeding days.

Induction of the volunteers into the navy will be held with appropriate ceremonies on Saturday night.

NEWLYWEDS HONORED AT FAREWELL DINNER

Mr. and Mrs. Albert Ramsey, of East Washington street, were hosts at a family dinner party in their home last evening when they entertained informally honoring their sister and new brother-in-law, the Rev. and Mrs. Paul Chesney, nee Virginia Ramsey, a bride and groom of August 7.

The occasion was in the nature of a farewell, inasmuch as the honored couple left later on for their new residence at 338 Candler road, S. E. Atlanta, Ga., where Rev. Chesney is pastor of a Southern Presbyterian church.

Dinner was served at a table prettily appointed in keeping with the nuptial motif, and the time following was spent leisurely with various avenues of diversion.

The bride is the daughter of Mr. and Mrs. George W. Ramsey, of Mulberry street.

Out-of-town guests included Mr. and Mrs. Richard Ramsey and daughter, Jane, of Beaver Falls.

MRS. M. ROUKE HONORED AT INFORMAL GATHERING

Wednesday, a group of twenty of the elder members of the Primitive Methodist church, with their pastor and wife, Rev. and Mrs. James H.ley, sharing as special guests, gathered to New Wilmington and spent the day with Mrs. M. Rouke, who resides with her daughter, Mrs. Wilmont Lakey.

Dinner was served at a table prettily appointed in keeping with the nuptial motif, and the time following was spent leisurely with various avenues of diversion.

G. T. club enjoyed a chicken dinner at a tearoom Wednesday evening.

Pastime was 500, with prizes going to Mrs. Katherine Brogan and Mrs. Elizabeth Perry.

The club will meet again next Wednesday at Mrs. Perry at her home on Brinton Hill.

NORTH BEAVER GARDEN CLUB HAS CORN ROAST

A corn roast at the home of Mr. and Mrs. C. E. Fullerton on the Covert Station road Wednesday evening, interested members of the North Beaver Garden club, who gathered with friends and their families for the August event.

About sixty were served dinner at 7 o'clock, and the hours that ensued were spent most informally in playing cards.

The next meeting will take place on Wednesday, September 9, with Mr. and Mrs. Samuel G. McCullough of Mt. Jackson, hosts.

Stoner-Cover Reunion

Members of the Stoner-Cover families gathered at the home of Mr. and Mrs. Frank Cover at Frizzleburg recently for their forty-second annual reunion.

Picnic dinner was served at noon to 77 relatives and friends at tables on the lawn under a 125-year-old elm tree.

Picture-taking, visiting, and a business meeting occupied the afternoon. Officers re-elected were: President, L. O. Cover; vice-president, John B. Stoner; secretary, Minnie Matthews; treasurer, Linc Stoner.

It was decided to hold the 1943 reunion the second Saturday of August at the home of Grant Matthews, The Harbor.

ATTACKING RUBBER PROBLEM

MONTHS ago Japan conquered 97 per cent of the world's rubber sources. The United States, whose civilization can be said to operate on rubber tires, was caught off guard. While America was furnishing Japan with vast reserves of oil, gasoline, scrap iron and other potential war materials, no adequate reserves of rubber were acquired here. Neither was real consideration given to the problem of producing rubber substitutes.

Now, eight months after Pearl Harbor, more than six months after the rich rubber hinterland of Singapore fell into Japanese hands, President Roosevelt finds that responsible government agencies are so mixed up about rubber that a commission has to be appointed to investigate. This all-enveloping confusion has existed for months. Yet nothing was done to dispel it until Congress, under farm bloc influence, enacted a bill to take supervision of manufacture of grain alcohol rubber out of the hands of the War Production Board.

This whole rubber mess is one of the most discouraging spectacles of this war. With all the vaunted American genius for practical research and industrial application of scientific discoveries, with all this nation's boasted aptitude for mass production, with all of its supposed devotion to sound business principles, the rubber problem has become so jumbled up that no one, not even the President of the United States can make head or tail of it.

There's now to be a start in clearing up this miasma. When government is in a jam, appointment of a commission is standard American technique. The membership of this rubber commission is composed of men of such attainments as to command public confidence.

Bernard M. Baruch, chairman, of the War Industries Board in the first World War. Doctor Conant of Harvard is an outstanding organic chemist. Doctor Compton of Massachusetts Institute of Technology is a distinguished physicist. Their trained scientific approach should mesh with the business and production experience of Mr. Baruch.

What is wanted at the earliest moment is rubber, or rubber substitutes, with which to fight this war and equip civilian transportation. For the first time the problem is being approached seemingly with some degree of order and intelligence. For that Congress deserves the nation's gratitude, for there's no evidence that without the vetoed rubber bill the executive would even now have acted.

FOG IN THE WAR

Never before in the history of the world have those engaged in war figured on fog as a factor as they are doing today. It is one of the knots those two new weapons—the submarine and the airplane—have not untied.

There is in the far north in the Murmansk region a fog that forms at sea and moves slowly like a great cloud shoreward. It is this fog which has made it extremely difficult for Axis undersea boats to see and attack the supply ships the Allies send to that front.

There are fogs that roll around the Aleutians which make the operation of planes in that part of the Pacific difficult much of the time and on occasion impossible.

In mid-September fogs often blanket the North Sea and the English Channel, a fact which some writers speculate may have a part in a United Nations invasion of the continent.

In the southern seas and in interior campaigns as in Africa and in Russia fogs are not in the equation of war. Along coasts in northern climes they must be reckoned with.

COMPULSORY SAVINGS

Senator George of Georgia said the other day that the nation may be compelled to adopt a plan of compulsory subscription to war bonds. After Julian Goldman, New York chain store official, had urged the Senate finance committee to approve a compulsory savings plan which would "siphon off" twenty-five to thirty billion dollars of consumer purchasing power, Senator George said that measured against the government's needs if the Treasury succeeded in selling \$12,000,000,000 in war bonds to the public this year it would be a "low minimum."

He thought that many persons were not buying bonds now because they wanted to see first what the new taxes would be. But he added that the new taxes might be such as not to encourage purchase of bonds by the public.

Senator George declared that if the government came to compulsory bond sales the best and most direct method would be to step up individual and corporation income tax rates with the provision that 20 per cent of the taxes should be invested in war bonds.

The World

GREAT IS THE ZIPPER

One of the significant signs of these times is an advertisement by a large New Jersey manufacturer, recently published in the New York papers. He wants and will pay cash for obsolete stocks of zippers, in all lengths and sizes, and will take any quantity, provided they are of domestic manufacture.

The advertisement serves to emphasize the value of this greatest of modern gadgets which has contributed so much to the sartorial security and comfort of our day. War needs, necessitating the creation of essential materials, created problems of readjustment for zipper factories, and these may be solved before any acute shortage develops. The fact that plastics have been and can be employed in lieu of metal, and that

dependable alloys can also be substituted, makes any prolonged shortage unlikely.

A zipperless America, a zipperless world, would be hard to readjust. The zipper is one of the greatest inventions of all time. Probably the greatest invention is the wheel; that is a very old one. More modern ones, almost equally great, are the toggle joint, the carburetor and the safety pin. Now the zipper has displaced the safety pin for many uses, robbed the old reliable of much of its importance. The zipper is a time-saver, a temper-saver, a public benefactor, unrivaled for dependable service.

When peace comes, a memorial might be fittingly erected to the zipper's inventor. Patent office records may reveal who he was. Or should the memorial be erected to the gadget itself? Surely it merits as much honor as the cheese to which a memorial has stood for many years in Europe.

The largest maker of the zipper is a neighbor of New Castle—the Plant at Meadville.

Finally—never let your zipper get foul of your underwear.

OTHERS

In these times we are interested in good nutrition not only for our own children but also for other people's children. In average times there is an enormous amount of fresh vegetables and fruits grown in small home gardens and orchards that goes to waste for want of gathering and marketing. Even now there is seen some serious waste in Victory Gardens.

Some persons assume that if they cannot harvest and market the products of their own small gardens they are justified in letting the food spoil. Of course, there is a limit to what a person with a garden can do, physically and financially. Yet most people who have small gardens could, with a little effort, get the food into the hands of deserving families by giving it to them when it can't be used or sold with profit. If all of us who have small gardens were to consider the possibilities here we might find that we could often share and even have plenty ourselves. Let us be especially considerate of families with young children. This also might apply to milk. Some owners of just one or two milk cows are accustomed to feed the surplus milk to pigs and chickens or to throw it away.

A Human Problem
Some problems arise, however, when you invite a seemingly deserving family to come to your garden or orchard to help themselves. I recall that when I was a boy on the farm we once had more cherries than we could use. Two families of the neighborhood were invited to help themselves to those cherries. They did, but in picking the cherries they wrecked some of the trees. The same might happen to your garden. There has always been the problem of lack of consideration.

When we and our children receive vegetables or fruit from the surplus supply of our neighbors we have a special moral obligation to make sure we do not injure or destroy the property of those who so generously share with us. Most of all, we owe it to our growing children to teach them by precept and example consideration for the rights and possessions of others.

Use More Vegetables And Fruit
Let me urge those who grow small quantities of vegetables and fruit to use these foods freely while they are fresh and not deny themselves and their children, now, in order to can foods for next winter. It is wise to look ahead, of course; but even so, some persons will can peas, beans, corn, beets, berries and the like, and eat almost none of them right from the garden. It is not unlike the all too prevalent practice on the farm of denying growing children ample eggs and milk in order to sell these valuable foods and buy more expensive canned foods with the money received therefrom.

Let me add that in most places of the United States it is still not too late to plant beans, lettuce, Swiss chard and numerous other quick-growing vegetables. Why not encourage the children to plant a garden?

What of the diabetic patient injured in an air raid?
All diabetics should wear identification tags.
An injured diabetic needs special emergency treatment.
How will he be recognized during air raid operations?
He may be brought to the hospital with many other injured.

He may be in shock and unconscious.
He may die if treated only for his injuries.
Delay in special emergency diabetic treatment can be fatal.

Every diabetic should wear the special diabetic's tag.
It will not publicly divulge the wearer's diabetic state.

Physicians and hospital attendants will interpret it.

It looks now as if the time "To do or die" has come.

It was out in the rural regions. The rancher came home late in the evening and saw a light bobbing around his house.

"Aha!" he said to himself. "A prowler, and I'll catch him red-handed."

He approached closer and saw it was Jim the hired man.

"What the devil are you doing prowling around with a lantern at this time of night?" he demanded.

"I'm courting Mabel, the hired girl," Jim answered.

"A devil of a way you go about it," grumbled the rancher. "When I went courting my wife I never carried a lantern."

"No, sir, you couldn't have," Jim said. "We all can see that you didn't, sir."

Adversity is the real test of fidelity.

"Let's see, you're an optimist, aren't you?" "A kind of a one. I believe the world is getting better every day, but I'm not so sure about the nights."

Landlords are reported as being slow about registering. Probably get that way from waiting for tenants to pay their rent.

Troubles of a father whose daughter is just beginning to have beaux were related to us the other day. "Darned if I know just how to act," confessed the father. "I am over-friendly with him. I'm liable to lose my dignity and make him feel we're trying to palm off the girl. And if I'm not dignified, I'm liable to be considered a stuffed shirt, which I'm definitely not."

A little ditty much used in World War I is sent in. It is supposed to

THE BREAKING POINT

"What made you quit your job?" "Well, the boss called me in last week and said he was going to fire me. Then he fired me a couple of times. The next day he had a fellow in my place, and—well, that was too much. I handed in my resignation."

Good Taste

By E. A. Robert O'Brien

"Please tell me how to set my table. Where each item should be placed—knives, forks, spoons, napkins, etc."—Mrs. W.

Answer: The silver and dishes on your table vary according to the occasion. But for even the simplest meal, when a minimum supply is used, your table should be set as follows: At the right of your plate, just above the forks, your glass should be to the right above the knives and spoons. If your salad is served along with the meat course, it is now customary to place it at the right of the dinner plate, although some prefer the old method of placing it at the left.

When the dessert and the coffee are served, the desired spoons will then be placed on the table.

When the table is set, no more than three forks and two knives should be placed thereon, regardless of the menu. If additional silver is desired it should be distributed with the additional courses.

Question: My living room is 12 feet 7 inches by 14 feet. My dining room measures 12 feet 7 inches by 14 feet 10 inches. I intend to purchase two rugs which measure less than 9 by 12. Do you think these will be suitable for the rooms mentioned?—Gertrude L.

Answer: If your floors are sufficiently attractive for so great an exposure, the rugs you mention may be used. On the contrary, a narrow border of wood will give the room a larger appearance. The smaller the rug, the smaller the floor space will seem. Nine by twelve is the normal size rug for either of the rooms of the dimensions of yours.

HINTS AND DINTS MAN'S
PICKLE RECIPE

Quite a few people have asked us for our old time pickle recipe. If you like pickles follow the recipe to the letter and you will have real pickles.

Take as many cucumbers, large and small and wash them, of course. Put them in a jar or crock. Take a cupful of rock salt to every half-gallon of vinegar. Weaken the vinegar to your taste as regular strong vinegar may not suit you. Have enough of the vinegar to cover the pickles. The small pickles will be ready for use the next day. These pickles will not keep more than a week or so and are not for winter use. Nothing but the salt and vinegar, remember.

In England women are getting thinner, but it is not because of their dieting. It's because of the things they cannot get to eat.

NOT MUCH CHOICE
A burglar's wife was being vigorously cross-examined by the prosecuting attorney. "Madam, you are the wife of this prisoner."

"Yes."

"You knew he was a burglar when you married him?"

"Yes."

"Now I ask you came to marry such an individual?"

"You may," snapped the witness.

"You see, I was getting old and had to choose between a burglar and a lawyer."

Some big guys only laugh when they are asked questions they do not want to answer.

Did you have the car out last night, son?"

"Yes, Dad. I took some of the boys for a run."

"Now tell the boys I found one of their little lace handkerchiefs."

Truman Criticizes Donald Nelson
Not Using Enough Of His Authority
Shortage Of Steel Bone Of Contention

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, Aug. 13—Although Chairman Harry S. Truman of the Senate's defense investigating committee was particular to say that he wasn't criticizing Chief Donald M. Nelson of the war production board for inefficiency he complained of in the latter's organization, he did remark that he wished Manager Nelson would "exercise more of his authority."

Possibly the senator didn't consider it critical of the production boss to imply that he'd under-exercised the authority required to get proper action out of the bureau he's responsible for.

Some of Nelson's friends, however, are pretty sore about it. To outsiders, looking in on the situation, Nelson has appeared as a matter of fact, to be dealing with Army and Navy supply divisions in a tolerably hardboiled fashion. Still, various readjustments in relationships between the WPB and the two departments have been necessary, and, in the process, various problems have had to be solved. Maybe there's been more or less delay in hitting on the correct solution.

Senator Truman not only thinks so, but ventures a guess at "wilful misconduct."

Steel for the Navy is the item mainly involved.

Steel Shortage
There isn't enough of it available. The Missouri senator evidently suspects that there's no good reason for the shortage. If not, the conclusion would seem to be that steel interests have been trying to hold down the supply with a view to keeping the price up. By way of being charitable with them, perhaps it is fair to assume that they are not attempting war profiteering, but simply are endeavoring to foreclose against a flooded post-war reservoir.

It scarcely requires saying that the steel folk pronounce this the worst lie ever invented. The Navy folk agree with them, which also sends the Navy folk, if they were true, it would suggest at least gross carelessness on their part, or even official connivance, in letting the steel contractors make good (or bad) at it.

Navy Secretary Frank Knox is sufficiently perturbed by it to have

THE GOLFING PARSON'S WIFE

"Ah," said the golfing parson's wife. "This I must lead the poor away. Who ring the bell while he's at play. All summer long I start at noon. To answer, 'I expect him soon.' I tell prospective brides and grooms. When they may use the parish rooms. And set their wedding hour when he On hand to marry them will be."

"We're told a lot about the woes. The well-known golfing parson knows. But not one word about the cares. And burdens Mrs. Parson bears: No word about the hours she spends. Defending him from curious friends. Who would discover where he lurks: No word about how long she works. To keep his golfing garments trim. The sympathy all goes to him!"

"Now let me have a word or two! About that faded sweater blue. The truth is this: No button's gone! I've regularly sewed them on! Please, rhymester, get this matter right."

Looking
At Life—By Erich
Brandeis

Father Divine, who recently left New York to its own fate, because of "disrecognition" he received in the metropolis, has opened a seashore haven in Atlantic City.

It's the formerly swank Brigantine hotel, and where rooms used to rent at \$12 a day without meals, they will now cost \$2 a week.

Five thousand of his flock came to the opening but only 300 could get into the banquet hall, to participate in the fried chicken feast spread out for them. The rest had to be satisfied to listen over loud-speakers to their messiah's harangue and partake of watermelon, of which there seemed to be an unlimited supply.

Father Divine himself has established a sanctuary in the hotel, consisting of two choice suites on the third floor, facing the ocean.

Meals in the new "heaven" for those who do not stay there will cost 15 cents each.

I have talked to no many of the "angels" who frequent the "heavens" of this 20th century phenomenon. They believe in him implicitly. They have gotten religion through him, and no matter what his end may be, in that respect he has done a world of good to thousands for whom nothing good has ever been done before.

There is something about religion which makes it work while no matter how it manifests itself, no matter what form it takes.

To the cynic Father Divine's "angels" may seem bizarre, ridiculous.

But read Webster's simple definition: "The feeling or expression of human love, fear, or awe of some superhuman or ruling power."

What difference does it make how the power proves itself?

If you are poor and hungry, and suddenly someone gives you fried chicken and watermelon—Isn't that enough to make you believe once again?

To some the pomp of the church and the beauty of the Good Book may mean religion.

To the others it may be food and shelter, kindness and love.

But don't confound religion with religiosity.

You feel, one, you display the other.

Sabbatical Leave For Mrs. Nelson

Mrs. Marjorie Rhodes Nelson, as-

Mrs. Nelson, whose post will not

NEEDLECRAFT MEMBERS PICNIC AT MOORE HOME

West Side Needlecraft club mem-
 bers enjoyed a tureen dinner party
 at the lovely home of Mr. and Mrs.
 Jesse Moore, Walmo, on Wednes-
 day evening, the orchard providing
 a perfect setting for the outdoor
 picnic event.

Dinner was served at 6:30 o'clock,
 with members and their families in
 attendance. A tour of the garden
 of the Moore home provided a most
 enjoyable avenue of pastime after-
 wards.

Special guests included Mr. and
 Mrs. Jesse Moore and son Stuart,
 Frank Taylor and Hugh Stewart.
 On August 25 Mrs. Hugh Stewart,
 of Kurtz Place, will receive the
 membership at her home, with group
 3 in charge of activities. It will be
 a tureen dinner.

Buone Amici Club

Members of the Buone Amici club
 met in the home of Mrs. Mary Ada-
 mo Wednesday evening.

Contests and dancing were pas-
 times, prizes going to Jean Tuscano
 and Mrs. Rose Passarelli. Later in
 the evening the hostess served a
 delicious chicken dinner, aided by
 her daughters, Mrs. Frank Orrio
 and Mrs. Frank Granato.

Mrs. Susie Pagley captured the
 club prize, and later plans were
 made for a Wiener roast, on August
 18, at Cascade Park.

The next meeting will be in the
 home of Mrs. Teresa Quido, South
 Mill street, on August 26.

A. O. T. G. Club

Members of the A. O. T. G. club
 will meet with Mrs. Elizabeth Mit-
 chell on Monday, August 24, for
 their social event. Plans were com-
 pleted at their last gathering held
 with Mrs. Anna Vecchio on Dextey
 avenue, hostess.

In cards, Mrs. Frank Dute and
 Mrs. Barbara Smith were the prize
 winners. Lunch was served at the
 close of the entertainment.

Young People Guests

Young Peoples society members of
 the First Baptist church were en-
 tertained in the home of Mary
 Louise Davis on John street, Tues-
 day evening.

Games and singing were the pas-
 times, and following, lunch was
 served to twenty-two. Mrs. Davis
 was aided by Lucille Lynch with
 the menu, the closing feature.

Kahle-Ashton Auxiliary

Kahle-Ashton auxiliary of post
 No. 8 of the 28th Division, A. E. F.,
 will meet this evening at eight
 o'clock with Mrs. Howard S. Ham-
 mond, 421 East Leasure avenue, at
 eight o'clock.

Business will be taken up and
 reports of the national convention
 held at Lebanon will be given. A
 social period will follow.

Officers Meeting

This evening the Casa Savola
 auxiliary officers will meet in the
 club rooms, South Mill street. Pres-
 ident Mrs. Clotilda Ross announced
 today.

 and 8 have been reserved for 6:30.

Friendship Street

Mrs. Philip LaScola, of Harrison
 street, received the Friendship club
 Wednesday evening in her home.

Special guests attending the
 meeting were Mrs. Michael Phil-
 lips, who also won the card prize,
 and Miss Ann Thomas. Mrs. John
 Arnold received the club token.

At an appropriate hour the host-
 ess served a delicious lunch. August
 26 is the date for the next meeting,
 with Mrs. Fred Maciariello, State

Trinity Church Picnic At Camp Is Fine Success

Annual Picnic Outing For Trinity Episcopal Church At Y. W. Camp Attended By 150

Trinity Episcopal church of which Rev. Robert M. Griswold is rector, held a most successful picnic outing on Wednesday, August 12, at the Y. W. C. A. camp, located at East Brook, which was attended by members of the congregation, their families and friends. Charles Lyle was general chairman in charge.

An annual occasion, this year's has topped similar occasions undertaken in the past, and at yesterday's all day outing, upwards of 150 participants. Transportation facilities were arranged by Fred Butz and William Francis, with cars leaving the church at the corner of North Mill at Falls street, from 1 o'clock on.

At 6:30 o'clock, all sat down to a most deliciously prepared full course dinner. Mrs. Howard Kley and Mrs. Lewis Pearsall, Sr., are to be commended for their supervision of the menu.

Following a program was presented in the nature of a radio broadcast, under the direction of the Laymens league, headed by Dudley M. Arnold, Harry Clufford and Franklin Clary.

Sports were in vogue throughout the afternoon and evening hours, with Franklin Clary, chairman. Those winning prizes included the following: Swimming feats, Billy Craig, Ida Lindoeffer, Offutt Eberstadt, Eddy Davis, George Drake, David Meehan, Marjorie Matthews and Kathryn Wallace; plunging races, Marjorie Matthews and George Drake; ball throwing contest, George Weinschenk, Ida Lindoeffer, Arnold Lewis and Betty Blewitt; putting contest for children, Mary Eagleson, and ladies, Mrs. J. Lapere Matthews; peanut scramble, Joan Dart and George Weinschenk; rolling pin contest, Mrs. Emma Irwin; bean guessing feature, Mrs. Frank Robinson, George Richardson and Mrs. Harry Clufford.

Mr. Lyle received fine cooperation from committees appointed in making the 1942 outing such an overwhelming success in every way, and a similar event is already being planned for 1943.

The Flood of Deluge, mentioned in the Bible, is estimated to have happened in 4,000 B. C. The time is fixed by unearthing remains in alluvial deposits, including stranded fish, near Kish, showing that the sea swept in over the plains of Mesopotamia. Kish was founded after the flood, 3400-3200 B. C.

Wilmington Rotarians Hear Dr. Williamson

Member Of Pittsburgh-Xenia Faculty Discusses Reconciling Pacifism And World War II

Dr. C. J. Williamson, of the faculty of the Pittsburgh-Xenia Theological Seminary, Pittsburgh, was the speaker at this week's meeting of the New Wilmington Rotary club. Discussing pacifism and present war, Dr. Williamson said, "There are five principles that will be wiped out if Germany wins the war: Worth of personality, rights of the individual, the existence of God, the universal moral code, and universal brotherhood. With them Christianity would go."

"If Christianity should disappear, then pacifism would have been directly responsible. Christ taught love, but He also reminded people who would not follow Him that they must face Him on the throne of judgment. We must teach the other half of Christianity—judgment—as well as love."

Guest at the meeting was Rev. George Martin, of Detroit. Speaker next week will be Paul E. Whittemyer, superintendent of the Sharon schools.

Auto Crash Kills Youngstown Youth

Jack Price, Known Here, Accident Victim, Relatives Learn

A Youngstown young man known here was dead today following an automobile accident in the Youngstown district, it was learned.

The victim, Jack Price, 19, employed in one of Youngstown's mills, resided at 114 Carnegie avenue, in Youngstown's Wickliffe residential development, relatives here said. His grand-uncle is Fred Driver, Atlantic avenue.

He leaves his mother, Mrs. Verna Price; a sister, Marjorie, and a brother, Leonard.

Details of the crash and the funeral arrangements were not known here.

City OCD Notes

This Column Contains Items of Interest to OCD Workers.

Proprietors of business houses here are installing blackout switches on the outside of their buildings. However, some of them are not complying with the law in regard to placing signs stating they are blackout switches. According to the city office of the OCD this is compulsory.

Tonight's meeting in the Rose avenue school is for first aid instruction, according to Ted Clark.

Air raid wardens and fire watchers of the third precinct of the eighth ward will convene at 8 p. m. Friday in the Polish Falcons hall and the tenth precinct of the second ward will meet at the same time in the U. P. church, Albert street.

Auxiliary police met last night on the third floor of the city hall and received lessons in first aid from Instructor Hannon. Approximately 50 auxiliary police were present.

BOTH SIDES SUFFER HEAVY NAVAL LOSSES SEEMS INDICATED

(Continued From Page One)

"Supporting naval forces have been engaged in bitter fighting, details of which are not yet available," the communiqué stated.

The land operations, spearheaded by U. S. Marines, appeared confined to three islands the names of which the Navy did not see fit to disclose, while U. S. Army and Australian land-based aircraft continued to pound away at Jap bases.

(BULLETIN)

(International News Service) LONDON, Aug. 13.—News reaching London indicates that United States Marines battling on the Solomons island of Tulagi have been reinforced by American paratroops, the Daily Express said today.

A full scale naval action appears to have developed in the Solomons, the newspaper said. Although it is felt impossible that Japanese forces surprised the U. S. Pacific fleet, as Tokyo claimed, it is probable that a large-scale naval engagement was begun, the Express said.

The paper said it believed that the strength of the American task force covering the landing of the paratroops would be sufficient to ward off inevitable Japanese counter-attacks.

News Briefs From City Hall

Norma and Sandra James, both small, were struck last night by an auto asserted by Miss Martha M. Hull, 3861 Brighton Road, N. S., Pittsburgh, according to city police. The children who reside at 315 East North street, were crossing East street when struck. Miss Hull had stopped her car at East and East Washington street for the traffic light and after starting out the accident occurred. However, an examination of the children in the Jameson Memorial hospital showed neither was injured to any extent.

Someone was somewhat free and careless with their 22 calibre bullet last night, two having been fired into the residence of Joe Barnhart, 235 Fern street. One of the bullets passed through a window into a bedroom according to the report at police headquarters.

There is more traffic to the city OCD office than any other office in the city building and the persons there are kept busy practically every minute of the day. The office has control of more than 1,000 persons who meet day and night, which explains why there is so much business there.

Henry Rich, R. D. 5, and Anthony DeLorenzo, 416 Hawthorne street, city, told police today they had no knowledge a car being towed by a truck had struck the car of Clara Anna Elliott New Wilmington, in Croton avenue, August 11, and promised to pay for the damage. Rich drove the tow truck.

Frank Link, 110 South Jefferson street, was in a pugnacious mood last night. That is, he was pugnacious to such an extent he picked on his ill room-mate. A policeman told him to stop and he did but later of the damage inflicted on the Nipponese, but that it included a "large number" of enemy planes destroyed and service units "put out of action."

For the second time this week the Navy made it clear that the invading forces had made all landings which they attempted. Although the names of the islands where footholds have been gained were not disclosed, it was presumed in Washington that they were Florida, Guadalcanal, and Malaita, or possibly Tulagi, where the Japs have their principal base.

The Navy's reference in its latest communiqué to "bitter" naval fighting, led to speculation in this nation's capital that out of the invasion of the Solomon Islands may emerge the first real naval battle of the war. In the battles of the Coral sea and Midway several months ago, planes launched from aircraft carriers and shore bases waged the fighting—surface craft never even gaining sight of each other.

The cruisers apparently were of the lightly-clad type with which Mussolini had hoped to transform the Mediterranean into an Italian lake. Designed to throw sneak punches at an enemy and then dart out of sight at 40 miles an hour, their light armament made them perfect targets for heavy bombs.

London, Aug. 13.—America's wings soared into the battle of Europe with a vengeance today as official communiques here and in Cairo disclosed major operations by the United States army air force over a wide area of war.

Coincident with disclosure that American fighter pilots, believed to have flown British Spitfires, had joined the Royal Air Force in operations against occupied France and off the British coast, an electrifying communiqué from Cairo disclosed that American heavy bombers had hit and damaged three Italian cruisers in a daring raid on the port of Navarino in Greece.

LONDON, Aug. 13.—American troops in Great Britain may soon go on the strictly limited English wartime diet, the Daily Mirror reported today. British and American officials are conferring on the advisability of standardizing army diets, the newspaper declared.

LONDON, Aug. 13.—The symphony of war is rising in crescendo and the next 60 days will see "a terrible increase in intensity of the struggle," Minister of Production Oliver Lyttleton said in a speech today.

"There is no doubt whatever that Russia has received a severe blow in the south," he said.

"In Egypt the situation is still tense and it is undoubtedly true that within the next 50 or 60 days we shall see a fierce struggle there."

"The attack at sea is not wholly bad. Allied shipping losses decreased in July and the toll of U-boats has been more encouraging. That of the last two or three weeks will be above the average, but increased attacks must be expected."

CHUNGKING, Aug. 13.—American fighting planes attacked a Japanese base at Yochow in northern Honan province on Tuesday, it was announced today.

High explosive and incendiary bombs were dropped on the target area, it was said. The raid was described as "highly successful."

All the American planes returned to their bases.

LONDON, Aug. 13.—The populace of Japan, tensely awaiting details of the engagement in the Solomons which were promised for today, was rudely disappointed when a naval spokesman broadcasting over the Tokyo radio said that the announcement would have to be postponed.

The spokesman said merely that details "probably" would be available tomorrow.

Three days ago the Japs claimed a tremendous victory in the battle.

BERLIN, Aug. 13.—(By Official German Wireless)—The German high command claimed today that one of its U-boats had sunk five transports in the eastern Mediterranean.

LONDON, Aug. 13.—Writing in his weekly magazine Das Reich, Propaganda Minister Paul Joseph Goebbels admitted today that Germany is for the time being "receiving bitter wounds" from the Royal Air Force according to a broadcast picked up by Reuters.

Goebbels, who plotted the "Bader" raids against English cathedral towns in reprisal for the British "blitzes" of Cologne and Essen, termed the Royal Air Force "spiteful."

LONDON, Aug. 13.—United States marines at Tulagi are making "continued progress," the London Evening Star said in a special Sydney dispatch today.

Indications are the situation may develop into a more important clash, involving perhaps the greatest naval engagement in history and having an important bearing upon the future of the war in the Pacific and elsewhere, The Star said.

LONDON, Aug. 13.—Reports of widespread sabotage against Nazi installations and supply trains in Norway and France were received in London today.

A Reuters dispatch from Stockholm said that many German soldiers were reported killed and wounded when a train collided with a fuel train on the Douai-Arras line in France.

The resultant explosion was said to have wrecked 44 trucks, 19 tank cars and two engines. Sabotage was suspected, the report said.

A similar incident was said to have occurred recently at Lille where a German troop train crashed into a freight train, killing 100 Germans and injuring many others.

CAIRO, Aug. 13.—Three Italian cruisers were damaged when heavy bombers of the United States air force carried out a raid on Navarino, in Greece, at dusk on Monday, it was disclosed today.

MOSCOW, Aug. 13.—German military authorities have assumed "almost full authority" in Paris, the Moscow radio declared today. The action follows recent outbreaks of disorders in occupied France.

All roads into Paris are heavily guarded and the civil police force has been ordered to maintain a constant alert, the reports to Moscow stated.

refusal to grant a ten per cent wage increase, discussed governmental demands that they return to work immediately.

The labor arbitrator declared that the Bayonne situation paralleled a strike at the North American Aviation plant in California some months ago. At that time President Roosevelt ordered army troops to remove the picket lines from the plant and open the doors for workers who wanted to remain at work.

Authoritative sources earlier said that Mr. Roosevelt would act to end the "wildcat" strike if the means fail to effect a speedy settlement.

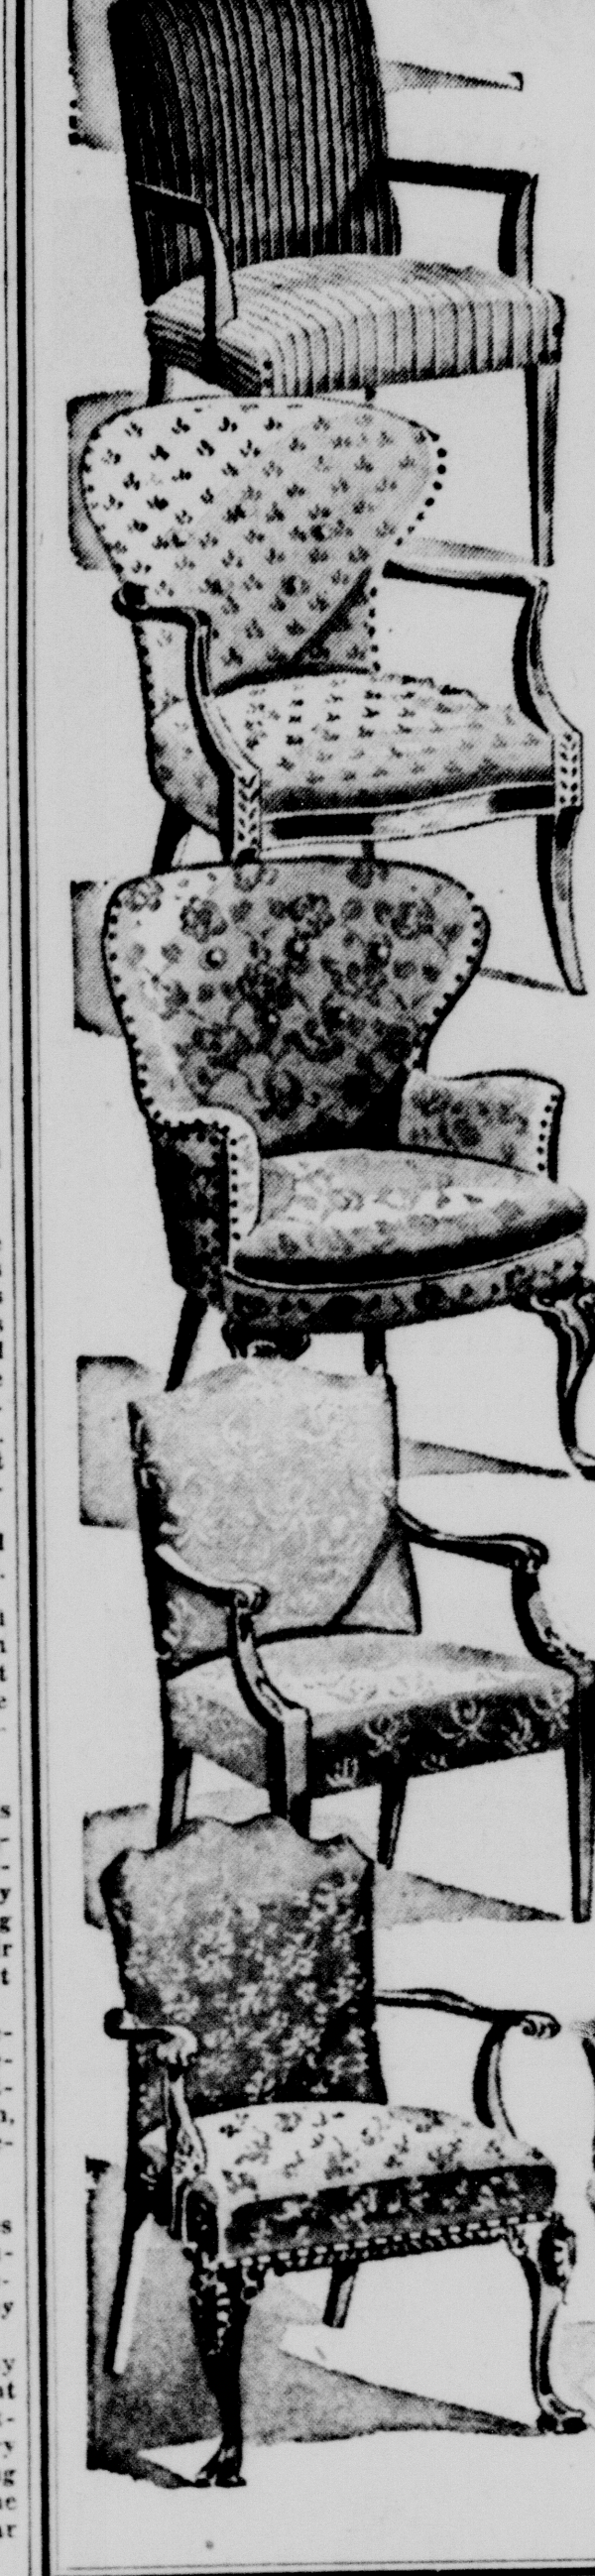

First Test

The strike is viewed as the first test of the policy recently laid down by the War Labor Board, with presidential approval, that wage increases demands by war workers shall be adjudged in relation to the increased cost of living.

Davis said that an attempt to settle the strike was being made at Bayonne today.

"We hope they (the negotiators) reach a settlement," Davis said, "but if they don't we will remove any picket line which may be set up and keep the plant open for production."

tunity to choose their own government and to "live out their lives in freedom from fear and want."

The charter was adopted in the United Nations declaration signed in the White House on Jan. 1, 1942, by the president and Churchill, by the United States and Great Britain, by Ambassador Litvinov for Russia and Foreign Minister Soong for China.

On the following day, representatives of 22 other countries signed the declaration, and the number of United Nations rose to 28 on June 14 when Mexico and the Philippine commonwealth were accepted.

As an enunciation of political and economic freedom, the charter has already fostered several preliminary objectives. These have provided a formal basis for lend-lease agreements, and for the recent conference at Rio de Janeiro.

Despite its name, the Atlantic charter is a world-wide compact, OWI declared. "In signing the document, both President Roosevelt and Prime Minister Churchill stressed that it applies to all freedom-loving nations sharing its principles."

"Feeders" Drop In Corn Belt

Meat Shortage Looms As
Total Of Grazing Cattle
Shows 19 Per Cent
Loss

(International News Service)
WASHINGTON, Aug. 13.—The department of agriculture on Wednesday announced that the number of cattle being fed in the corn belt states for beef markets "is sharply lower now than it was at the same time last year," increasing fears that the meat shortage may continue longer than originally estimated.

The department reported that the amount of cattle being fed in the corn belt area is 19 per cent less this year than it was at the same period in 1941.

The agriculture report attributed the decline to "uncertainties in the minds of feeders" as to the effect price ceilings will have on the wholesale market.

Will Hold Exams For Parole Jobs

Civil Service Board Sets
September 1 as Date For
Applicants To Be
Examined

(International News Service)
HARRISBURG, Aug. 13.—The state civil service commission announced Wednesday that state-wide competitive examinations will be held September 12 to fill between 62 and 95 positions with the new Pennsylvania board of parole.
The parole law, which was approved by the 1941 legislature, provides for at least six and not more than 10 supervisory districts with the number of subordinate positions depending upon the district total. Applicants, who must have resided in Pennsylvania for 12 consecutive months prior to taking the examinations, must file applications before midnight, August 31. All forms must be accompanied by two sets of fingerprints made at State Motor police sub-stations or barracks. Eligibility lists will be effective for two years. War veterans will receive a preference credit.

General Director
Examinations will be held only at Harrisburg for the post of general director of parole, with salary ranging between \$6000 and \$7500 annually, and for assistant director at a minimum salary of \$4200 and a maximum of \$5000 a year.

Competitive examinations will be held at Erie, Altoona, Pittsburgh, Scranton, Philadelphia, Williamsport and Harrisburg for the following salaried vacancies:
Six to ten district supervisors, Class 1, \$4200 to \$5000, Class 2, \$3600 to \$4200. Two to four assistant district supervisors, \$3000 to \$3600. Two to four institutional representatives, \$2400 to \$3000. Fifty to 75 parole officers, senior \$2400 to \$3000, and junior, \$2100 to \$2400. From five to eight vacancies will be filled by women, the board said.

NAMES COMMANDER
HARRISBURG, Aug. 13.—G. Albert Stewart, secretary of forests and waters, and director of the Pennsylvania Maritime Academy on Wednesday, announced he has nominated Lt. Allan C. Hoffman as superintendent-commander of the academy.

Isaac Practices Peace Highlights On The Sunday School Lesson The Golden Text

One of the wells of Beer-Sheba

"Blessed are the peacemakers: for they shall be called sons of God."
—Matt. 5:9.

By NEWMAN CAMPBELL

(The International Uniform Lesson on the above topic for Aug. 13 is Genesis 26, The Golden Text being Matt. 5:9, "Blessed are the peacemakers, for they shall be called sons of God.")

There was a famine in the land, where Isaac, Abraham's son lived, so Isaac went to the land of the Philistines whose king was Abimelech. The name of the land was Gerar. The Lord had told Isaac not to go to Egypt where most people went when famine was in their land. We do not know the reason he was told not to go there, but there was probably a good one.

The Lord told Isaac to "sojourn in this land, and I will be with thee; for unto thee and thy seed, I will give thee all these countries; and I will perform the oath which I swore unto Abraham thy father."

Now Rebekah, Isaac's wife, was very beautiful, and those were cruel, cruel times, and Isaac was afraid that when the men of Gerar saw his wife they might want her for themselves and kill Isaac to get her, so instead of saying she was his

wife, he told everyone that she was his sister. After a long time the king Abimelech saw Isaac and Rebekah together and knew from the manner in which they were acting that she was his wife, not his sister. He told Isaac he had seen them together and said, "Behold, of a surety she is thy wife; and how saidst thou, She is my sister?" And Isaac was ashamed to confess that he had been afraid to tell the truth, even though the Lord had promised to protect him and be with him.

Isaac Becomes Rich

Isaac then sowed in the land and his crops were wonderful and he "waxed great." He had many servants and great herds and the Philistines envied them. The wells that his father Abraham had dugged there had been filled up with dirt by the Philistines, and finally Abimelech told him to leave there because "thou art much mightier than we."

"And Isaac digged again the wells of water which they had digged in the days of Abraham, his father." And Isaac's servants digged in the valley and the wells gave out "springing water." The herdsmen of Gerar came then and fought with Isaac's men over the wells saying they were theirs. Water was very precious in this region which was dry for many months of the year. In the rainy season the rivers were full, but they dried up in the droughts that were frequent. Isaac's men must have conquered, for Isaac named the well Esbek, meaning contention. He dug other wells, too, and went to Beer-sheba. There the Lord appeared to him again and again promised to bless him, and Isaac bulid an altar to the Lord there.

Then Abimelech came to him with two friends and Isaac asked him why he had come, "seeing ye hate me and have sent me away from you." Abimelech answered, "We saw certainly that the Lord was with thee; and we said, Let there be now an oath betwixt us, even betwixt us and thee, and let us make a covenant with thee; that thou wilt do us no hurt, as we have not touched thee, and as we have done unto thee nothing but good, and have sent thee away in peace; thou art the blessed of the Lord."

Isaac Makes a Feast

Isaac therefore made a feast for them and they ate and drank. And in the morning they "swore one to another; and Isaac sent them away, and they departed from him in peace."

That same day Isaac's servants dug another well, and told him they had found water. "And he called it Shebah; therefore the name of the city is Beer-sheba unto this day."

Abimelech must have been a good man, and he it was who reproved Isaac for lying to him about his wife, and how ashamed Isaac must have been that he, the blessed of the Lord, was told his fault by a man who had not the Lord's blessing, but was a heathen.

One great grief Isaac had in spite of his prosperity. His son Esau, who was then 40 years old, took two wives, Judith and Bashemath, who were not of the chosen people, making it a crime for him to have married them. Isaac and Rebekah were greatly troubled by this. We are told it was "a grief of mind unto Isaac and to Rebekah."

Isaac, the son of Abraham and Sarah in their old age, was not a perfect man. He had faults, but he did try to live at peace with his neighbors and "Blessed are the peacemakers," said our Lord, "for they shall be called sons of God."

Motor Club Membership At All-Time High, 932

New Castle Motor club (AAA) membership attained an all-time peak August 1 when records showed a total of 932 members enrolled.

Pacing the new member trend are the membership renewals, now reported at 88 percent.

Secretary-Manager Bernard N. Hanlon said the current membership stimulation stems from "a greater understanding of what the club does for the motorist."

Helps to the motorist like those are pushing the club membership to its highest point ever, Alec Samuels, board president, asserted.

Police Use Force In India--Seem To Have Situation In Hand

Call Disorders "Wildcat" Strike

Congress Party Leaders Attempt to restore "Non-Violence" Campaign

BRITISH LABORITES APPEAL TO INDIANS

By C. S. De ANDRADE
(U. S. Staff Correspondent)
BOMBAY, Aug. 13.—Stern repressive measures appeared today to have claimed the turbulent spirit of India's revolt. While disorders subsided they had not ceased but prompt police action in the country's larger cities has discouraged the more violent demonstrations.

Police were compelled twice to fire on rioting mobs in Bombay on Wednesday as the death toll throughout India mounted to 100. In Bombay alone 34 persons have been killed. Hundreds are in hospitals and thousands in jail as a result of four days of disorders.

Congress party leaders who launched the Nationalist revolution on Sunday were reported to be making every effort to restore the demonstrations to the "non-violent" campaign authorized by Mohandas K. Gandhi. This effort was handicapped somewhat by the fact that most of the Nationalist leaders are in jail.

"Wildcat Strike"
Authorities called the disorders of the past four days a "wildcat strike" and contrary to the program of Gandhi and his colleagues in the Congress party leadership. They dealt with it accordingly, instituting

curfew regulations and restoring the whipping post.

One Bombay police inspector hit upon an effective method to curb the exuberance of Indian youths who figured largely in the disorders. He armed his men with bamboo rods and instructed them to bring in all unruly youngsters and spank them.

"Indians will understand that 'spare the rod and spoil the child' philosophy," he declared.

They spent most of the night warming pants for the good of India and the United Nations.

(In London the India office declared the situation was "well in hand" and said any impression of widespread disorder was distorted. There are no indications of any widespread mass movement and the war effort of India has not been impeded, the statement added.

"At the same time Britain's Labor party appealed to the people of India to 'unite with the United Nations' and wait until the end of the war to press their demands for independence. The Labor party statement approved the arrests of Gandhi and other Nationalist leaders as "a timely and unavoidable precaution.")

Need Legislation For Labor Draft

"Manpower Mobilization" Act Likely To Come After November Election

By PHILLIPS J. PECK
(U. S. Staff Correspondent)
WASHINGTON, Aug. 13.—Despite Congressional criticism, manpower commission officials maintained Wednesday that compulsion will be necessary to effectively mobilize the nation's human resources for total war.

A national service act, endorsed by manpower officials and giving the government authority to order its citizens into jobs where they can best aid the war effort, is in the "drafting" stage, but indications are that it will not make its appearance until after the November elections.

Chairman Paul V. McNutt of the war manpower commission said recently that such legislation would "make my job easier."

A special House committee investigating the war effort charged, however, that compulsion would not be a "cure-all" for the nation's manpower problem and termed the manpower commission's consideration of such legislation "a confusion of weakness and inadequacy."

Manpower officials vigorously disputed the committee's observations. Two of the most pressing problems that could be cured by a national service act are labor "hoarding" and "pirating," they argued.

Although McNutt has issued "directives" providing for the hiring of skilled workers in labor shortage areas through the U. S. Employment Service, officials admitted, in some areas, war plants also are "hoarding" skilled workers in anticipation of expansions and greater need for trained manpower.

Forestry Secretary Spurs Inspection Of Flood Basins

Seek Methods To Correct Future Floods In Several Sections

(International News Service)
HARRISBURG, Aug. 13.—An inspection by the flood emergency committee of areas devastated by flash floods in southeastern and northern Pennsylvania was spurred Wednesday by Secretary of Forests and Waters G. Albert Stewart.

He said that the areas to be studied were the Lehigh river basin, embracing the cities of Easton, Allentown and Bethlehem; and Potter, Tioga, McKean, Cameron and Elk counties.

"The purposes of this inspection are three-fold," Stewart said. "First, to determine what may be done immediately to correct such conditions which—if not corrected now—may contribute to serious floods during the next period of heavy rains, ice-melt or snow run-off."

"Second," he stated, "to determine what projects by reason of conditions beyond our control must be advanced until after the war, and third, to recommend such legislation as may appear to be desirable and necessary to meet the new conditions arising from these flash floods and conditions incident to the prosecution of the war."

Stewart emphasized that the federal government has "withdrawn from participation in flood control projects in the form of dikes and dams." He added that it was anticipated that such projects would be postponed until after the war. The committee will submit a report to Governor Arthur H. James.

The committee is composed of Thomas C. Frame, chief highway engineer; Joseph J. Walsh, deputy secretary of mines; J. R. Hoffert, secretary of the sanitary water board; R. J. Gillis, chief of encroachments of the forests and waters department; and Lt. Leroy V. Greene of the governors' office.

TRUCKERS RETURN
(International News Service)
WILKES-BARRE, Aug. 13.—A truck strike, inaugurated in Wilkes-Barre on August 1, ended Wednesday when members of the AFL union accepted an offer of the truck operators.

The contract, it was reported, will be signed this afternoon and work will be resumed immediately. Terms of the agreement were not revealed.

But why let soldiers in the Orient suffer with dysentery? Can't the army find a little blackberry wine?

U.S. Chamber Asks 10 Per Cent Tax

Want Retail Sales Tax And Five Per Cent Income Withholding Levy

By WILLIAM S. NEAL
(U. S. Staff Correspondent)
WASHINGTON, Aug. 13.—Challenging the treasury program, the United States Chamber of Commerce on Wednesday called upon Congress to double the pending \$271,000,000 tax bill through enactment of a 10 per cent retail sales tax and a five per cent payroll and income withholding levy.

The sales and withholding taxes, chamber spokesmen told the Senate Finance Committee, would raise more than \$10,000,000,000, while the full program would produce \$12,000,000,000 a year in new revenue.

The chamber proposed a corporate normal tax and war surtax of not more than 35 per cent, with adjustments for net incomes below \$25,000.

It recommended government bond issuances and debt financing designed to hold inflationary borrowing from banks to a minimum, along with encouragement for greater purchases of government securities.

Outlining the organization's general tax program, Ellsworth C. Alvord, of Washington, chairman of its Federal Finance Committee, stated that the treasury insists the tax bill should (1) raise the minimum amount of added revenues required to finance the war, and (2) work as an anti-inflationary weapon.

"We challenge the treasury program and the house bill," he said. "They pass neither of the two tests. Furthermore, the two tests themselves are insufficient. Our government needs the maximum revenues, not the minimum, and must borrow the balance. Neither the treasury program nor the house bill will contribute materially to the fight against inflation."

Whatever title Admiral Leahy is given, it means the rank of Harry Hopkins, first class.

No Hose Available For Stirrup Pumps

(International News Service)
NEW YORK, Aug. 13.—Stirrup pumps—those glorified bicycle pumps which have been used successfully in London to quench incendiary bombs—may be unobtainable in this country because of priorities James M. Landis, U. S. director of civilian defense announced today.

The hitch is in obtaining hose for use with the pumps.

The OCD thought they had the problem licked last May when, finding that rubber was unavailable for pump hose, they decided on a substitute—polyvinyl-butyl hose, a plastic material.

But now, Landis asserts, military authorities have requisitioned the entire supply of this material because of its usefulness in many forms of waterproof garments and containers.

JUST KIDDING?
(International News Service)

PHILADELPHIA, Aug. 13.—John Stull, 56, faced a possible jail sentence today because his idea of a "joke" was to paint a huge swastika and the word "kill all Jews" on a Philadelphia rooftop.

Police said Stull, who was charged with malicious mischief, admitted doing the unorderly paint job while working on an adjoining house. It was all a "joke" and he had intended to smear out the signs, Stull was quoted as saying.

MERCER PRESSED FOR MORE HOMES

MERCER, Pa., Aug. 13.—Burgess Fred W. Elliott and President of Council R. H. Thompson were in Pittsburgh today in an endeavor to secure a priority on building material for the erection of new homes in Mercer. There is a constant demand in Mercer for housing accommodations for those employed at the Keystone Ordnance Plant and the Shenango Replacement Center near Shenango. An effort will also be made to secure a priority on material for repair work. As the situation now stands, there is not a vacant house in town for rent.

Same Methods Shown In Club Robberies

MERCER, Pa., Aug. 13.—The robbery of different clubs in the county, including the Moose Club of Mercer, Eagles Club of Greenville, and the Veterans of Foreign Wars in Sharon, is believed to have been committed by the same persons, as the technique of all three robberies have been the same. The same methods of entrance have been employed, and the same methods of ransacking the establishments, with the exception of the Mercer Moose where no liquor was stolen.

Our big shots don't feel guilty. They feel competent because they work so hard at getting nothing done.

Routine Matters Handled By Board

School Board Delayed By Lack Of Quorum, Routine Business Matters On Hand

Lack of a quorum—five members—last night delayed for half an hour the opening of the August meeting of the Board of Education in School Administration building, East street.

Member Leslie Brindle's arrival at 8 o'clock gave the needed parliamentary "go" and, in a session lasting until 11, the board:

Wrestled with a number of individual school tax problems.

Awarded a \$167.50 printing contract to Miller, Pyle & Street for state-required reading lists for several schools.

Increased the monthly car allowance of S. G. Ligo, superintendent of buildings, grounds and equipment, from \$25 to \$30, effective September 1.

Handled full authority for granting use of school buildings over to Superintendent of Schools Frank L. Burton. During the change in superintendents the authority was temporarily lodged with John B. Bechtold, school board secretary and business manager.

Granted to WKST the right to conduct play-by-play broadcasts of Taggart stadium football games this fall.

Approved a request from Jameson Memorial hospital asking the use of the Senior high gymnasium for the nurses' health classes. The dietetics class of the nurses now uses the school laboratory.

Granted Troop 4 of the Boy Scouts the right to continue to use Mahoning school for its weekly meetings.

When Scout Executive John J. Finnegan personally made the request. Discussed briefly, but took no action, on a proposal to give the bleachers at Taggart stadium a new paint coat.

Vice President Griff Thomas presided at the session, attended by members Brindle, Col. W. Fulton Jackson, A. C. Hyde, Daniel B. Woolcock and, for short time, Dr. W. D. Cleland. Absent were C. Leroy Shira and Robert L. Preston.

Observation Posts To Hold Tag Day

GROVE CITY, Aug. 13.—A tag day to provide comfort for the several plane observation posts in this area, manned by 300 members of the American Legion Post and volunteers, has been approved by a Legion meeting yesterday. It will be held Saturday, August 29, and the sales will be conducted by Boy Scouts and the Sons of Legion.

Delegates from the local post to the State Legion convention in Pittsburgh next week were instructed to vote for state officers. An informal discussion developed the sentiment of the local post that veterans of the present war should be accepted for membership in the American Legion.

Re-Elect Stewart School Policeman

City School Policeman Robert L. Stewart was re-elected for another year by school directors last night. His yearly salary, \$1,680, was renewed and his automobile allowance was increased from \$25 to \$30 a month. Stewart also receives \$200 annually from the Athletic Council for police services at outdoor and indoor school sports affairs.

The board also voted a \$20-per-month car allowance to Superintendent of Schools Frank L. Burton.

CAMP RUN

Fay Wagner is spending some time at the home of Mr. and Mrs. Herbert Sturgeon.

Mrs. Herbert Sturgeon underwent an operation in the Ellwood City hospital, Monday.

Margie Syphrit, who had her tonsils removed at the Ellwood City hospital Friday, is recovering nicely at her home.

Mrs. Ed. Sahli and children, Phyllis Lou and Eddie of Beaver Falls, have returned after a visit with her mother, Mrs. O. G. Phillips.

Mrs. Ray Hemmerlin of Hobbs, New Mexico, and Mrs. Fred Duncan of Frisco, were Sunday guests of Mr. and Mrs. William Robinson.

Appoint H. N. Cobb To Milk Commission

HARRISBURG, Aug. 13.—The appointment of H. N. Cobb of Towanda, Bradford County, as a member of the milk control commission today rounded out the regulatory body for the first time in almost three years.

Cobb, who receives \$6,000 annually, succeeds Howard G. Elsmann, Erie, who resigned from the commission in September, 1939, following a long quarrel with Gov. Arthur H. James. Cobb's term will expire May 1, 1943.

The two other members of the commission are John M. McKee, chairman, and John J. Snyder, now on furlough from the state while in military service.

Made Master Of Arts At Middlebury College

Margaret E. Reehner, 514 County-line street, New Castle, received the degree of Master of Arts from the Bread Loaf School of English, Wednesday night at the annual commencement exercises of the Middlebury summer school. Dr. Donald A. Stauffer of Princeton University delivered the address which closed the twenty-third summer session of the school.

This visible muddling of war matters isn't what scares us. If men can't do well in public, think what they do in secret.

More Selected Men Go To Erie

Local Board Two Sends Out Large Group This Morning For Examination

Local Board No. Two, of the City of New Castle, sent a record-breaking crowd to the Erie Induction Station this morning for the final physical examination before being inducted into the service.

These men will return this evening, following their examination and will remain at home for the automatic 14-day furlough before being sent away to a receiving camp for assignment for army service.

In the group this morning was a large number of young men in the 20-year old class, in addition to quite a number of older men.

Solomon Attack Starts Campaign To Send Jap Back

(Editor's Note: Significance of the United States naval, air and land offensive against the Solomon Islands with relation to the forthcoming all-out drive to send the Japanese scuttling back to their island empire is disclosed in the following dispatch from Pat Robinson, International News Service correspondent. Rushed to Australia soon after the Japanese attack on Pearl Harbor, Robinson has spent months with American officers and men at bases throughout Australia and on nearby islands and is fully conversant with conditions throughout the southwest Pacific.)

Pacific rise small hills which are real jungles interspersed with fat patches of tall Kunal grass. The Japanese hold it in force and would undoubtedly throw in everything they have to keep it. If we held Rabaul, Australia would be safe and we would be well on the way to rolling them back towards Japan. Such offensives naturally entail considerable losses and require large naval and ground forces ready for action, with supply routes well guarded and continuously fed.

Elect Two Teachers Four Others Resign

School Board Accepts Resignations At Meeting Wednesday Night

Two new public school teachers were elected last night when the Board of Education convened for its August meeting in the school administration building, East street. Five resignations—four of them from teachers—were accepted. Elected were: Miss Martha Nell Shaffer of this city, who was chosen as a temporary professional, and Miss Jean McGeorge of this city, to teach English at Washington junior-senior high school. Resignations of the following were accepted: R. C. Kirkpatrick, electric shop instructor, who is returning to Westinghouse; Mrs. Mettie Round Winston of Washington, who is resigning to take a position in New York; Mrs. Ruth Krohn Thompson of McGill school, who is leaving to make her home in California; Mrs. Geneva Hazen Grossman of Washington, who gave marriage as her reason, and Miss Bertha Dodds, secretary in the Ben Franklin office, who is moving to Buffalo.

Mass Suicides Occur In Paris

Jewish Parisians Commit Suicide Rather Than Submit To Pogrom

(International News Service)
LONDON, Aug. 13.—At least 300 Jews, including many women, committed suicide when German military authorities launched an anti-Semitic drive in Paris early this week, the Daily Express declared Wednesday in a Geneva dispatch quoting an eyewitness of the reported Paris pogrom.
"Paris was in a chaos," the unidentified eyewitness declared. "Women fought policemen like tigers, and others ran screaming through the streets with their babies clasped to their bosoms. Others rushed about with older children clinging to their skirts."
At the time of the reported pogrom dispatches to Reuters' news agency from the Berliner Tagwacht of Zurich said police and Nazi guards made a systematic search of Paris on the "Jew hunt" and that many women threw themselves and their children from windows in preference to falling into the hands of their German persecutors.

Steel Shortage Laid To Disunity

Army, Navy And WPB Go Separate Directions Missouri Senator Says

By ELLIOTT HAYES
(U. S. Staff Correspondent)
WASHINGTON, Aug. 13.—Sen. Harry S. Truman (D) of Mo., on Wednesday placed responsibility for faltering war production on failure of government and private leaders to work together in mapping a common sense procedure.
"Everyone knows we need steel," Truman said, "yet our steel production is limited because we have insufficient blast furnace capacity."
"We have plenty of ore in the ground. We have the transportation to haul it. We have the mills to form the ingots into plates and structural shapes."
"But the heart of the industry is the blast furnace to convert the ore into pig iron and then into ingots from which plates and shapes are made. The most important link in the chain is the weakest."

Truman said the committee is greatly interested in fixing the final responsibility.
Lack Of Unity
"Meanwhile," he said, "evidence shows there is a lack of unity which everyone expected would be eliminated by the war production board. The Army is doing what it pleases, so are the Navy and the WPB. They appear to be three horses—each pulling in a different direction."
Truman said he felt there was something radically wrong with a program that permitted the shutting down of vital plants at a time when all possible production was needed to win the war.
He was of the opinion that creation of huge stock piles of raw materials reserve should have been the first step in the all-out war plan, that converting plants should have come next and finishing plants last instead of first.

Assign Principals For Coming Term
Hartman, Cornelius And McCracken Assigned Schools By Superintendent Burton
Superintendent of Schools Frank L. Burton made known new principal assignments at last night's session of the Board of Education. He assigned the three newly elected principals as follows:
Joseph A. Hartman, to be principal at Highland avenue and McGill schools; John Cornelius, to Rose avenue and Oak street schools; and Glenn McCracken, to Thaddeus Stevens and West Side schools.

Cooper-Bessemer Sales Increase

GROVE CITY, Aug. 13.—A tremendous gain in volume of business for the first six months of 1942, as compared with the similar period in 1941, but with corresponding increases in Federal taxes, is the gist of the semi-annual report to stockholders of the Cooper-Bessemer Corporation by President B. B. Williams. The company, with plants here and at Mt. Vernon, Ohio, is 100 percent on defense work, principally marine Diesel engines.

Sales jumped to \$14,039,101 for the first six months of this year, compared with \$4,773,173 for the same period last year. Should Have Kept His Mouth Shut

(International News Service)
OCEAN CITY, N. J., Aug. 13.—Richard Rollins, 34, of Norfolk, Va., might still have been "Lieutenant" Rollins today if he had followed the advice of the war posters and "buttoned his lip."
As he returned the salute of a passing ensign in Ocean City, Rollins gave the young officer a big smile. The "lieutenant" lacked nothing in military manner, but the smile disclosed that he was missing several front teeth.
Aware of Navy physical requirements, the ensign reported the incident to police, who later said that Rollins admitted wearing the uniform illegally. The man is wanted for forgery in Newport News, authorities added.

Accept Resignation Of President Foster

The Board of Education formally accepted the resignation of its president, Major Arthur B. Foster, last night. He resigned the presidency only and not his board membership. Election of a successor will come at the September meeting, it was indicated last night after the board briefly broached the matter. Vice President Griff Thomas is acting as president.
Major (Dr.) Foster, elected president in December, 1941, resigned because of his call to Army service.

Lou Signs Juicy Cleveland Contract

Boy Wonder Rewarded With Three-Year Document; Salary About \$25,000

By GERALD B. HEALEY

(International News Service)

CLEVELAND, Aug. 13.—The Cleveland Indians aren't going any place this year, but their kid manager, Lou Boudreau is.

He has signed a three-year contract for a salary believed to be around \$25,000 a year.

That's nice potatoes for the 25-year-old University of Illinois shortstop, who took over the piloting of the tribe at the start of the current season and said he'd be satisfied if he wound up in the first division.

But the youngest manager in the American League, underestimated his ability to mold a smooth-working outfit from a rookie catching staff, a minor league first baseman and a right fielder who figured he was washed up.

Reward Comes

Boudreau's reward came right after the first game of Tuesday night's "twilight" doubleheader in which Al Milnar helped his boss along by pitching a two-hitter against the Detroit Tigers without gaining a decision in 14 innings.

A fancy outfielder himself, Lou's helmsman worries have taken a big slice off his work at shortstop this year, but he's still the best ground coverer in the circuit and is hitting within a few points of the 300 mark.

The tribe is leading the league in inflicting with just about the tightest inner defense Cleveland fans have ever seen. They'd be closer to the flying Yankees if anyone was keeping a flying company in the 300 batting circle. Les, too, has slumped of late and yet the Redskins are putting up a fight for second place with the Boston Red Sox.

All of which is a great tribute to the boy who joined the Indians in the late summer of 1939 and became their sparkplug and field leader through the dark days when they were fighting with their old manager, Oscar Vitt, trying to get him fired and blowing a pennant in the process.

President Alva Bradley has given Lou the chance to work on what he calls his "five-year plan" for an American League flag and it begins to look like Cleveland will have its sixth manager in nine years around for quite a spell.

Rex Team Loses To Dewey A. C. 6-3

St. Margarets And Wampum Play 1-1 Deadlock; Meeting On Monday

Dewey scored a 6-3 City-County Independent Baseball league triumph over the Rex and St. Margarets and Wampum played a 1-1 tie on Wednesday night.

"Ace" Congini occupied the mound for the Dewey in the Lee avenue field fracas and pitched a five hitter. Lowers and Carpenter were more liberal, passing around 10 safeties. Bobby Nelson and R. Nelson banded extra base hits.

Score by innings— R. H. E. Dewey 311 001 0-6 10 0 Rex 000 300-3 5 1 0

Batteries: Dewey—Congini and G. Adams; Rex—Carpenter, Lower and Guinbaugh.

Umpires—Wilson and Snow.

"Hoss" Zarilla and Powell got tangled in a pitching duel at Wampum as St. Margarets and Wampum played a 1-1 tie.

The rival pitchers gave up 11 hits between them.

Score by innings— R. H. E. Saints 100 00-1 6 0 Wampum 001 00-1 5 0

Batteries: Saints—A. Zarilla and Dantonio; Wampum—F. Powell and Mills.

'RUMOR UNTRUE,' JACOBS CLAIMS

Government Will Have To Make Louis-Conn Fight Announcement, Mike Says

(International News Service)

NEW YORK, Aug. 13.—Mike Jacobs, promoter for the Twentieth Century Sporting Club, said Wednesday there is no truth in the statement that he soon will announce a Joe Louis-Billy Conn fight for the heavyweight championship of the world.

"There may be such a fight some day," said Jacobs. "but nothing has been done definitely about it and when it is it will have to be announced by the War Department and not by me."

"If the War Department asks me to promote a fight between Louis and Conn for Army and Navy Relief I will be glad to do so. I have discussed such a fight with Army officials, but no decision has been reached in the matter."

The resignation was unexpected and came as a result of Mrs. Nelson's ill health.

Gardner informed the council that he would serve for a temporary period, until the organization names a new man.

The sudden shift means that Gardner will have to cut short his annual Muddy Creek Falls vacation and dis into the countless tasks attached to the office.

City Baseball league antagonists resume their furious skirmish for second half honors tonight.

Highlighting the card is the Slovak-Moose tussle booked for Marshall field starting at 6 o'clock.

While these two front runners swap blows, Bessemer faces the Lawrence Indians on the new Mahoning field; West Pittsburgh squares off against the Croton A. C. on Cascade field and the Elders travel to Ewing Park to battle the Ellwood City Socials.

The rejuvenated Slovaks trail the Moose by a game and a half. Manager Steve Russell today planned to send his strongest lineup against the crack first half champions, "Fiz" Rodenbaugh, determined to make a clean sweep of the league title, assured all and sundry that his "top lineup" will be in there to stop the Slovaks' rush.

The Elders and West Pittsburgh are deadlocked for third place honors. With the race rapidly moving down to the finish line, title-minded teams can't afford to lose more than one or two more decisions.

All games start at 6 o'clock.

'Air Raid Checks' For Pacific Coast Football Galleries

Ducat Same As Baseball's Rain-Check; Conference Session Colored By War

(International News Service)
SAN FRANCISCO, Aug. 13.—"Air raid checks" allowing football fans a refund if the game is broken up by enemy attack before the end of the first half, will go into effect in Pacific Coast Conference stadiums this fall.

That, among other changes streamlining the gridiron sport to wartime conditions, was decided upon at a meeting of graduate managers and athletic directors of the Ten Conference schools.

It marked the first time in the history of college football a regulation was adopted fixing a time-limited limit for box office purposes similar to baseball's rain-check rule. Two full quarters were set as the minimum for a completed game.

In the not too far-fetched possibility that the game is halted by Japanese bombs before half-time, customers may stop at the box office for a refund on their way to the nearest air raid shelter.

All other matters treated at the special session were colored by the war. In view of a railroad regulation limiting teams to one car, travel outside a 50-mile radius was limited to 26 players, and home teams will not be allowed to use more than the same number of men in any one game.

(International News Service)
GOSHEN, N. Y., Aug. 13.—City Slicker Will Strang, a moving man from dear old Brooklyn, was home-ward bound today, rejoicing because he had taken the farmers' sons and daughters for a "ride"—and not in one of his vans, either—and had finally captured the famed Hambletonian stakes!

Owner Strang, a 62-year-old gentleman who used to be an amateur driver himself, had the right combination in the Ambassador, a three-year-old bay colt by Scotland-Margaret Arion, and 69-year-old pilot, Tom White, up here yesterday and took home the \$39,000 purse and the Hambletonian cup in one of the wildest scrambles in the state's 16-year history.

Fifth In First Heat
The Ambassador, which finished fifth in the first heat, gave Will his first winner in seven tries at the famed "farmer's derby" when he captured both the second and third heats from longshot competitors who positively staggered the rural railroads.

The longshot stabbers from the plains of Broadway certainly had the horselaugh on the villagers in this year's trotting horse Kentucky Derby for Colby Hanover, the racer they insisted was a cinch, finished far out of the money in all three heats.

The son of Mr. McElwyn certainly proved the "Phil Scott of the trotting tracks" yesterday. Sent post-ward a 4 to 5 favorite, he finished a snappy eighth in the first heat. He was backed to 1 to 2 in the second trial and wound up a lovely 11th—dead last!

The race was a rich triumph both for Strang and old Ben White, who celebrated his third Hambletonian conquest. Because the order in which they finished in each heat determined their final placing the other money was distributed in the following order:

Second to H. R. Johnston's Pay Up, third to Thomas Thomas' Scotland's Comet, fourth to E. T. Gerry's Seven Up, fifth to George L. Hemph's Follow Me and sixth to D. J. McConville and C. F. Gaines' Mable Hanover.

SABOTEUR INSURANCE
NEW YORK.—Continued vigilance against enemy spies and sabotage agents is reflected in the tightening of Coast Guard regulations for operators of boats. Holders of licenses to operate their craft, including recreational boating, have been cautioned by Coast Guard officials that all persons on board should have an identification card, issued by the captain of the port.

Originally, only regular members of the boat's crew or party were advised to have identification cards, but a recent bulletin extends this to all persons carried at all times. Also boats may not operate at night, proceed to sea, or carry cameras or enemy aliens on board without special permission.

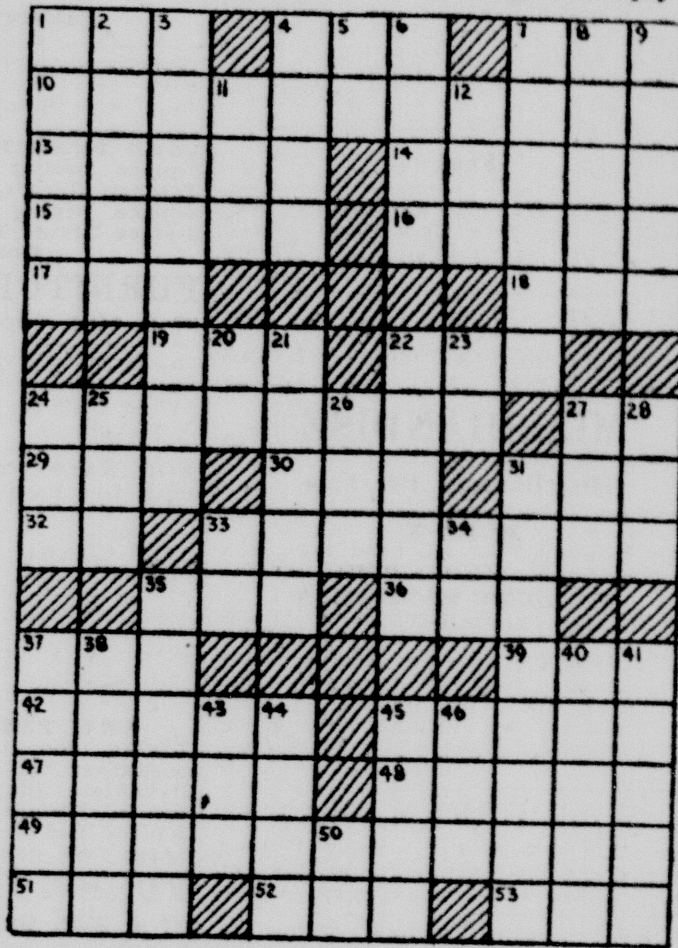

END IS NEAR
The Pacific Coast League season closes September 20 with the playoffs scheduled to get under way immediately thereafter.

Troops Now Engaged Over Wide Territory

(Editor's Note: Painstaking preparations which enabled the start of an American naval, land and air offensive in the Pacific are discussed in the following article by Major Paul C. Raborg, noted military commentator and author of "Mechanized Might".)

By MAJOR PAUL C. RABORG
Written Especially for International News Service

NEW YORK, Aug. 13.—The heartening news that the Aleutian island of Kiska now occupied by the Japanese has been attacked by a strong United States naval "task force" shows definitely the magnitude of the offensive action in the Pacific area that has recently been entered into by the United Nations.

The attack on Kiska is reported to have been very satisfactory. The Japanese apparently were taken entirely by surprise, so much so that when the ship's batteries opened up, the Japs—thinking it was an aerial attack, replied with anti-aircraft gunfire—shooting up in the air. Our naval vessels are said to have silenced the shore batteries. Once more we have an example of a surprise and an extremely efficient blow.

Hand to Hand
Strikingly indicative of the true offensive fighting is the report released from Washington that the Solomon islands operations are progressing in a manner considered to be satisfactory, and that the United States marines on land are engaged in hand to hand fighting with Japanese troops.

United Nations offensives are hitting at islands which are entirely around the northeast corner of Australia. This is almost proof positive that our forces have struck at the Japs because they themselves were preparing for offensive action, and again we have beaten them to the punch.

However, everyone from Washington to Prime Minister John Curtin of Australia is warning that we will without doubt suffer serious casualties. Of course, this goes without saying. Modern warfare of the type now engaged in by our land, sea and air forces, is not a gentle game. It's rough and it has to be rough. Our enemies are a little worse than rough and we've got to be still rougher. Dispatches are being

released which show clearly that the eastern end of New Guinea and New Britain are completely involved in the present offensive, and they also indicate clearly that our command is not only striking at a point of landing, but is attacking by air all of the back areas from which the Japanese may receive help.

Landing Operations
Our marines, of course, are always trained for landing operations, but they have been doubly trained since the declaration of our national emergency, and further they are entirely equipped for fighting of this kind. It looks as though our landing operations had been successful. However, in the event of reverses suffered we must remember that such occurrences of necessity happen in war, but we can now be very certain that such an expedition has been well prepared and properly equipped.

The means of effecting the transfer of marines from warship to shore are extremely interesting. Today the soldiers of the sea are supplied with collapsible rubber assault boats of considerable size. Further than this, of course, are the ships' small boats and at times in such an operation, if it is deemed necessary, actual lighters might be taken along by the fleet.

Perhaps of greatest interest is an amphibious tank which we know has been adopted by the navy and marine corps that has been referred to in the past as the "Roebling Alligator." These land battlechips of the sea are about 20 feet long, perhaps eight wide and have a height of six to seven feet. They weigh about seven and a half tons and are propelled by a caterpillar track.

This vehicle was first dreamed of in 1931 and was then much laughed at, but it has steadily progressed through the years until a floatable, sea worthy steel tank has been perfected. It can without danger jump itself off a six-foot high wall into the water. It carries more than 36 fully equipped marines. As a boat, the Alligator can make 10 miles an hour. On its own power it waddles out of the water onto the beach and once it's on land can go faster than 20 miles an hour. It can be driven straight into and demolish trees up to six inches in diameter.

From now on in the United States and all citizens of the United Nations, including those in occupied areas, will steadily see more and more the results of the superb war effort which has been accomplished by President Roosevelt and his various staffs, both military and civilian.

Some Good News On Production

(International News Service)
MORE COPPER—Miners, whose services are not needed in coal, iron and gold mining operations may be shifted to copper mines to facilitate production of this vital war metal, according to Lieut. Breton B. Somerville, chief of the Army Services of Supply.

MORE STEEL—Within 10 days after the War Production Board announced the need, experimental workers in the steel industry projected 10 new steel alloys which will prove of great help in manufacture of various types of war implements.

MORE OIL—Crude oil production in the United States during the week of August 8 has been at the rate of 3,996,155 barrels daily. The figure is a daily increase of 604,540 barrels over last week.

MORE MOTORS—Allis Chalmers Manufacturing Company, producing gasoline motors for the war effort has obtained \$40,000,000 in credit from banks to expand its operations.

MORE JOBS—More than 1,000,000 additional factory jobs have been created to further the war effort during the past year, the industrial economics division of the conference board reports.

Claim Violation Of Child Labor Act

(International News Service)
PHILADELPHIA, Aug. 12—The Justice Department today filed two criminal informations against the General Ribbon Mills, Inc., of New York, and two employees, in the first prosecution here for alleged child labor law violations.

The firm, one of the largest producers of ribbon novelties in the country, has plants at Catawauqua, Allentown and Emaus in Pennsylvania.

In its suit, the government accused the corporation and supervisors Clarence E. Strode, Catawauqua, and Edwin Ellis, Allentown, allowing "housewives" to employ as "home-workers" to use children under 16 to assist them.

Assistant U. S. Attorney Walter A. Gay declared the firm violated the federal wage-hour law of 1938 despite the fact that the children were not directly engaged by the company. Other wage violations also were charged to General Ribbon Mills, which employs 3,000 persons.

Local Boys Enroll At Military School

William E. Eakin, 423 Court street, and John R. Butz, 217 E. Lincoln avenue, New Castle, Pa., are enrolled at Pennsylvania Military college as freshmen. Cadet Eakin is taking the biology course and Cadet Butz the engineering.

Both cadets attended New Castle high school before entering college. Eakin was a varsity letterman in track, winning letters in '40, '41 and '42. At P. M. C. he will be a member of the track team. Cadet Butz will be a member of the fencing team when the fall term opens on September 28.
